Sustainable Strategies for Existing Federal Facilities

3.5 HRS
.4 FEMP CEUs

Learn about strategies to optimize building technologies, avoid the costs of waste and inefficiency, and create productive, comfortable, and healthy work environments.

- Implement sustainable O&M practices in the areas of energy, water, materials management, and indoor environmental quality
- Apply tools such as the EnergyStar Portfolio Manager to baseline, benchmark, and audit facilities to comply with the *Guiding Principles for High Performance Sustainable Existing Buildings*
- Implement sustainable strategies to achieve integrated, holistic, and cost effective improvements in building performance and green procurement
- Engage an organizational team to ensure continuous improvement and comply with your agency's Strategic Sustainability Performance Plan

Instructor: Sarah Jensen, LEED AP
Technical Lead for Sustainability
Federal Energy Management Program

Check out other FEMP Core Courses at
femp.energy.gov/training

FEMP Core Courses are designed for Federal energy and facility managers, but are open to all individuals at femp.energy.gov/training.
Hosted in partnership with the National Institute of Building Sciences Whole Building Design Guide at
http://www.wbdg.org/education/femp_ce.php.

Requires Google Chrome, Firefox 4.0+, Internet Explorer 7.0+ or Safari, and the Adobe Flash 9+ plugin.
After completing a course evaluation and multiple-choice assessment, participants will receive a certificate of completion and FEMP Continuing Education Units. For more information contact Beverly.Dyer@ee.doe.gov.
